

Enter a magical and enthralling world of Sundanese legend (West Java) brought to life through the masterful puppetry and music of West Java's leading *Wayang Golek* troupe Giri Harja 3. Pak Asep Sunandar Sunarya is a captivating visual storyteller, skilfully manipulating his elaborately carved and decorated puppets through complex martial arts movements and the delicate and subtle expressions of traditional dance. Pak Asep is particularly loved for his humour, using trick mechanisms in the puppets and hilarious references to every day life to entertain audiences of all ages. The accompanying gamelan music is lively and varied, characterized by dynamic dance drumming contrasting with music of incredible subtlety and beauty.

Tour produced by the Asian Music Circuit - full schedule inside
